

The Defense Finance and Accounting Service (DFAS) published a Vendor Pay Product Line Transformation Market Research/Request for Information (RFI) in Fed Biz Ops on March 3, 2003. Vendor Day for the Product Line was held in Columbus, Ohio on April 9, 2003. The RFI was related to a Business Case Analysis of the Vendor Pay function.

DFAS recently completed the evaluation of the Business Case Analysis (BCA) of the Vendor Pay Product Line and determined that transforming the Vendor Pay Product Line into a value-based organization by implementing a High Performing Organization (HPO) would improve our success in Vendor Pay without conducting an A-76 Competition in the foreseeable future.
